## CAREER OBJECTIVE:

My career objective is to transition into a front-end engineering role in the tech industry. With a background in finance, research, customer service, and a recent completion of a front-end web development bootcamp, I aim to apply my analytical skills, strong communication abilities and teamwork collaboration. I have worked closely with diverse teams to analyze data, contribute to projects and train new hires. I am eager to learn, be a part of a collaborative team, and commit to becoming a valuable asset in the field of front-end engineering.

## EDUCATION

---

### General Assembly: Front-End Web Development Bootcamp 04/2023 - 06/2023

- Developed a movie search engine website integrated with an API database, displaying results on a user-friendly card
- Collaborated on a team project to create an Airbnb website, gaining hands-on experience with Visual Studio Code
- Technologies used Javascript, JSON, HTML, & CSS
- Github Link: <https://github.com/KarKar1234>

### Loyola University Chicago, College of Arts & Sciences – Chicago, IL

Graduation: 05/2017

Bachelor of Science in Psychology, Minor in Spanish

## WORK EXPERIENCE

---

### Relationship Banker, JPMorgan & Chase – Chicago, IL 10/2022 - 05/2023

- Operated in daily transactions, opening and closing procedures for the branch
- Gained recognition from management for my warm and welcoming manner with customers
- Studied for the Securities Industry Essentials exam (SIE)

### Service Associate, Nordstrom Trunk Club – Chicago, IL

08/2019 - 10/2022

- Resolved customer issues and de-escalated any rising issue
- Educated clients on how to use the app as well as navigation of the website
- Resolved 50 emails and 20 calls per day meeting performance benchmarks in all areas (speed, accuracy, and volume)

### Research Assistant, Loyola University Chicago – Chicago, IL

09/2019 - 04/2020

- Translated and coded qualitative interview records into the Statistical Package for Social Sciences (SPSS) dataset
- Planned physical and mental exercises to measure children's concentration in a quantitative study
- Completed field work by conducting interviews on parents and their children for Adverse Childhood Experiences test (ACE)
- Applied a range of data analysis techniques, including statistical analysis, regression modeling, and trend identification, while meticulously inputting and managing large datasets

## SKILLS

- 
- Proficient in HTML, CSS, Javascript, React, SQL, JSON, ES6+, Github, Slack, SPSS, Salesforce, Microsoft Suite
  - Independently studied React and ES6+ to expand my web development skill set beyond the boot camp curriculum
  - Developed a fully functional Blackjack game and counter device using JavaScript, HTML, and CSS
  - Languages: English (fluent), Spanish (conversational)
  - Demonstrates high level of cultural awareness from living abroad for 14 years
